

CARBON-FRIENDLY COMPANY

HMS Bergbau Group CCF 2021 supports the following UN goals for sustainable development:

HMS Bergbau Group CCF 2021

Participant ID: DE-3037-0723

Valid until: 23.07.2022

This certificate guarantees that the reported amount of 156111 tons of CO₂ has been accounted according to the standard of the Greenhouse Gas Protocol, scopes 1-3. The amount of 264 tons of CO₂ has been offset with Gold Standard and VCS verified international carbon offset projects.

HMS Bergbau Group CCF 2021 has acquired shares (certificates) in climate protection projects corresponding to the calculated volume of CO₂ and therefore plays a transparent part in the realisation of the projects. This ensures that the company compensates for its own CO₂ emissions, and thus scales back the rise in global warming.

The projects have been certified, and the issue and closure of the certificates is registered transparently.

HMS Bergbau Group CCF 2021 is therefore a voluntary participant in emissions trading, and thus makes a contribution to maintaining a viable environment by reducing the emissions of greenhouse gases. The holder of this certificate makes a sustainable contribution to the commitment to tackle global warming.

Frank Huschka
