

CARBON-FRIENDLY COMPANY

HMS Bergbau Group CCF 2022/23 supports the following UN goals for sustainable development:

HMS Bergbau Group CCF 2022/23

Participant ID: DE-3037-0723

Valid until: 07.07.2024

This certificate guarantees that the reported amount of 79002 tons of CO₂ has been accounted according to the standard of the Greenhouse Gas Protocol. The amount of 690 tons of CO₂ has been offset with Gold Standard and VCS verified international carbon offset projects.

HMS Bergbau Group CCF 2022/23 has acquired shares (certificates) in climate protection projects corresponding to the calculated volume of CO₂ and therefore plays a transparent part in the realisation of the projects. This ensures that the company compensates for its own CO₂ emissions, and thus scales back the rise in global warming.

The projects have been certified, and the issue and closure of the certificates is registered transparently.

HMS Bergbau Group CCF 2022/23 is therefore a voluntary participant in emissions trading, and thus makes a contribution to maintaining a viable environment by reducing the emissions of greenhouse gases. The holder of this certificate makes a sustainable contribution to the commitment to tackle global warming.

Dipl.-Ing. Frank Huschka
